Our Earth is covered by more than 70% water. It is clearly one of our planets' most important eco-systems. As boating enthusiasts, we must do our part to preserve this valuable resource for generations to come.

**SEN-DURE GREEN** products have been formulated with environmentally responsible ingredients. Our products will not contribute to any known environmental hazard such as aquatic toxicity, global warming, ozone layer depletion and resource depletion.

**SEN-DURE** has been environmentally responsible for over 70 years. We are introducing a new line of environmentally responsible green products.

All **SEN-DURE GREEN** products are readily biodegradable, do not contain toxic chemicals, phosphates, strong acids or caustic, and are not tested on animals. All of our formulations are easy to use, highly concentrated and are packaged in recyclable packaging. **SEN-DURE GREEN** products won't leave behind unpleasant odors or harmful residues.

## **Boat Wash**

Safely cleans dirt, salt and stains from fiberglass, plastics, vinyl, metal, finished wood and all painted surfaces. A few capfuls in a pail of water will make gallons of rich lather to wash all boat surfaces. It is pleasantly scented with a fresh green apple fragrance.

## **Boat Cleaner & Degreaser**

Safely cleans, dirt, oil, grease and bird droppings from all fiberglass surfaces. Use on metal, mica, painted surfaces and finished wood.

Use 6 to 12 oz of concentrate per gallon of water or use 1.5 to 3 oz of concentrate per quart of water.

## **Concentrated Glass Cleaner**

Safely clean dirt, salt and other soils from glass surfaces without streaks or the use of alcohol, ammonia or any petroleum-based solvents.

Use 1 oz of concentrate in 32 oz of water (quart). Each quart of concentrate makes 32 quarts of ready to use glass cleaner.

## **Bilge Cleaner**

Safely cleans and emulsifies bilge oil, grease, gasoline, diesel fuel and transmission fluid. This product also deodorizes the bilge and leaves a pleasant natural citrus scent.

For normal bilge conditions, add approximately 1/2 fluid ounce of Bilge Cleaner per foot length of boat. Increase if bilge is heavily soiled.

Please do not discharge the emulsified waste into the water overboard.

Place into a container and dispose of according to local, State and Federal regulations.
